The End of an Era!

By Judy Gilson

Just one year shy of celebrating its 80th anniversary, this venerable building on West 140th will close its doors to its students, faculty, staff, alumni, and neighbors. The walls will come down and a new 'green', energy efficient building will be erected.

Many rumors have been floating around the last few years of where and how the new building would appear on this property. Let's set a few things straight. The question of Historic Registry has come up. The Registry is a Federal program with no bearing on JMHS. JMHS has been designated a Cleveland Landmark, which can be made or dropped by any councilman. Plans were considered to keep the existing building open, which would save with logistics of housing students elsewhere, while building on the football field along W 143rd St. That met with opposition from the neighborhood—those behind didn't want a looming structure out their front windows—those along 140th didn't like the idea of a football field in their front yard. The capped gas well in the middle of the field came up as well, but few knew that there is also a vented well within the building. Those issues will be addressed during construction.

Having a new building presents many advantages, but there are disadvantages that will be evident among alumni. The new structure will be three stories high along W 140th. Each floor will have identical classrooms, restrooms, offices, etc. If there is a lab on the first floor, there will be one in the same position on the second and third floors. This echoes academic plans that are currently being addressed across the country. The north end, main floor of the building, will house the offices. On the upper floors will be art rooms, which will benefit from the northern light. The actual main entrance will be about where the auditorium is now—students would enter and go to their left to go to classrooms and to their right would be the gyms, cafeteria, library and other general 'public' areas. There are two large gyms and several smaller 'training' or 'practice' areas. The cafeteria is a multi-purpose area—cafeteria during most of the day, study hall (?) and auditorium when necessary. The square footage is larger than our current auditorium and the stage area would be about 30% larger. All technology will meet and maybe even exceed what exists today. Overall, the school will meet several levels of 'LEEDS' certification—which focuses on energy savings, water

Farewell Open House—Saturday, May 7, 2011- See details inside!

Meet the New Principal, Mr. Luther E. Johnson

A graduate of The Ohio State University, Mr. Johnson received a Bachelors of Science Degree in Education, specializing in the Social Sciences. Though his start in education was in the social studies classrooms of Killeen, Texas, and later in Canton, OH, educational administration became his passion. In 1999, Mr. Johnson received his Masters of Educational Administration from Kent State University.

Since 2000, he has worked in the Cleveland Metropolitan School District. His administrative roles began on the east side of Cleveland as an Assistant Principal in various schools, last serving East Technical High School as a Campus Administrator.

Now, with a recent west side appointment, he has guided John Marshall High School to one of its strongest starts in recent history. With great concern for the students, faculty, and staff of John Marshall, Mr. Johnson is working to lead JMHS to Academic Excellence on the state report card. His active involvement with the Alumni association and community groups continues to keep John Marshall in the forefront of this academic community. He looks forward to many years of success and to continued good relations with a very strong JMHS Alumni Association.

efficiency, indoor environmental quality, reduced CO2 emissions, use of resources and sensitivity to their impacts.

The disadvantages—no longer will there be an indoor track, no pool, and no auditorium with fixed, elevated seating. These are some of the items that made John Marshall unique among the city schools.

Many people—staff, alumni, neighbors, have all expressed a desire to merge some of the existing structural features with the new building. The eagles atop the front façade, the carved school name, the lone urn (one of the pair from the 38 class), the decorative tile in the main office area, the metalwork by the auditorium, the commemorative plaques, and some of the other stonework from the front façade are hoped to be incorporated. The architects did not know of the mural in the cafeteria—but at this time, we're not sure if it salvageable—that wall area was changed in the 80's or 90's to bring the school in to the current 'age'. If it is salvageable—would it 'fit' in the new design?

The students will be housed at the two 'swing' school sites. The 9th grade will be at Brooklawn. There will be additional modular classrooms added this summer and an extended cafeteria area as well. The 10th—12th grade will be at Carl F Shuler. Sixteen modular classrooms will be added, parking lots expanded to house staff vehicles, and students will be able to park at a church a couple blocks away. By no means, will students have to go outside to go to their classes—the mention of modular or temporary brings up visions of schools in warmer climates, but particularly the overcrowding in Cleveland schools in the 40's and 50's. These modular classrooms will be comparable to the existing classrooms, lavatories will be added, and a hallway will be constructed between them and the existing building. Traffic patterns and street parking will be altered to make the neighborhood remain as normal as possible during the day.

To celebrate the many years that this building has serviced this community, we will sponsor a Farewell Open House on Saturday, May 7, 2011. Ralph Pfingsten will have several

presentations on the History of John Marshall, the JMH History books will be available for sale, as well as Ralph's other books, a portion of each sale contributes to general operations fund, Alumni Merchandise—shirts, caps, magnets, etc. will be available as well.

We hope that as many former teachers and staff, along with current faculty members can join us to walk the halls and reminisce. We are sure there are many stories that could be told. All former students, parents, neighbors and friends are welcome to attend. Plans are in the works for a brick sale (obviously, we can't provide them yet!), a video is being recorded and may be available that day, or for ordering, and maybe even a collection of memories to be compiled in to a book. To make the day eventful several plans are still in the works and times have to be nailed down, but we will be there to greet you!

We expect many to join us on May 7th, so please consider car pooling! Parking will be at a premium! Bring your camera, your walking shoes, and your memories!

Welcome to the New John Marshall High School!

This is the Artist's Rendering of the new JMH building. This drawing was supplied by one of the architects, Jeff Henderson at CEDA. This is not the final rendering of the design, nor is it to scale. You can see by this drawing, that the instructional classrooms are along the front of the building, while the 'community' areas are behind. Requests for merging some of the original JMH façade have not been incorporated as of yet.

Trustees Needed!

The Alumni Association has several Trustee Positions vacant. Please consider becoming a JMH Alumni Trustee—No Special Skills are needed.

We are also looking for a person to help take the load off our current web master. Meetings are held the first Wednesday of each month, except for July and August.

Please contact **Ken Tischler @ 216-226-5644.**

(Continued from page 16)

Susan Nagy 6/71, Gerald Valaitis 6/01, Trustees: **Ken Tischler, President 1/57, Elaine Staley 6/68, Mary Sinatra 1/54, Joy Brashwitz 6/54, John Papay 6/63,** and **Maria DeLuca 6/74.** We also had two new alumni join us, **Beth Cameron, 6/78** and **Mr. Reyes, 6/72.**

There was a large crowd of people lining the streets. Of course the little kids were most interested in the candy they catch. Many were dressed in red, white and blue or wearing Uncle Sam hats or patriotic visors. Many were waving flags, a true representation of the American spirit and pride in their country. No float this year due to illness, but we're looking forward to a super float next year.

Any alumni, or present JMH students, teachers, coaches, teams, or musicians, or Lawyerettes are welcome to join us. We would especially like a representation from the school. That would make our contingent a real John Marshall event.

Ethel Rippon-Rowe was inducted in to the John Marshall Hall of Fame last year for her service as a well-respected educator. She was able to join us to receive the honor.

While at JMHS, from 1949-1963, she was mainly the girls' Phys Ed. teacher, but also coached girl's basketball, began the cheerleaders and drill team, mentored student council, initiated successful honor study halls, and established the Oasis. Classes in to the 1970's still enjoyed the honor study halls and Oasis.

Mrs. Rippon passed on October 10, 2010. She was loved, will be missed, and remembered by many.

Robert Almquist

1935-2010

The Alumni Association regrettably reports the passing of one of its founding Trustees, Bob Almquist. As a member of the JMHSAA, Bob was actively involved on the Scholarship Committee and instrumental in fund raising efforts, constantly promoting Ralph's *From Rockport to West Park* and the *History of John Marshall*. Current JMHSAA President, Ken Tischler, noted, "Bob was our super salesman. Not only did he sell books, but the Alumni Association as well." Other Trustees recall Bob's knowledge, humor, organizational skills, pride in school memories, and his meticulous attention to detail.

Bob was actively involved in the planning and the successes of his 25th, 30th, 35th, 40th, 45th, 50th and 55th reunions for his 1954 class. Mary Sinatra recalls "Bob was there with his index cards, assuring we had correct addresses for all of our classmates. We may have our 60th Reunion in 2014, but somehow it won't seem the same."

He attended Riverside and then began at JMHS in the seventh grade. He was the senior class Vice President for the January 1954 class. Bob then attended Michigan State University, earning a BS in Mechanical Engineering in 1959. His career involved the sales of industrial tools.

Bob was married to Kathryn (nee Eberhardt), for 48 years. They have two children and three grandchildren. The Almquists attended many JMHS functions—from book signings to open houses. Bob was truly a 'super salesman of JMHS'. He will surely be missed.

Please Help Us Update our Records!

We strive to keep our database up-to-date so that we can provide addresses to your reunion committees and keep the communication lines open with all alumni. If you have siblings, parents, friends or relatives who graduated from Marshall and they are not receiving the Alumni Newsletter, it is likely that we do not have their current address or they may not even be in our database. Please help us and spend a few moments to let us know where they are - if they've moved, changed marital status, or are possibly deceased (please include class year, date of death, and copy of obit if possible). One of the most difficult tasks for any reunion committee is trying to find missing classmates.

You can always email us at info@jmh alumni.com or call us at (440) 356-0249. We want to hear from you!
Please remember to tell us if you move.
The Post Office charges us FIRST CLASS rates on a return & only forwards for a limited time.
